ADVANCED ORDER RULES
Streamline inventory and order management

Acumatica
The Cloud ERP
— CERTIFIED —
APPLICATION

Advanced Order Rules enhances Acumatica's ERP capabilities by seamlessly integrating automated compliance management, ensuring that every order adheres to industry-specific shipping and distribution rules without manual intervention.

Streamlined Distribution Management

Automated Rule Application: Automatically enforces distribution rules on all orders and purchase orders.

Easy Configuration: Users can easily set up and modify rules through a simple, user-friendly interface.

Comprehensive Rule Coverage: Supports various rule types, including shipping methods, customer categories, locations and customer attributes for enhanced flexibility.

Enhance Compliance and Efficiency with Real-Time Alerts and Seamless Integration

Real-Time Alerts: Notifies users of potential rule violations instantly.

Less Manual Review: Reduces the need for manual checks, saving time.

Seamless Integration: Works smoothly with Acumatica's order management.

Improved Compliance: Ensures adherence to regulations, enhancing security.
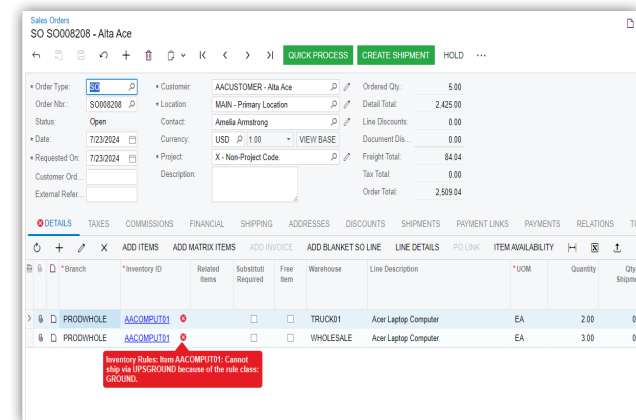

KEY BENEFITS

Ease of Compliance
- Ensures adherence to distribution rules, preventing legal penalties and supporting good business practices.
- Provides immediate feedback on potential violations, preventing downstream issues.
- User-friendly design allows non-technical staff to manage inventory rules, reducing IT reliance.

Reduced Manual Labor
- Automates rule application, speeding up order processing and minimizing human errors.
- Streamlines rule checking, improving order management efficiency and boosting productivity.
- Reduces time, labor, and compliance penalties, leading to significant cost savings.

Scalibility
- Easily adapts to growing businesses and changing regulations, making it a versatile tool.

ADVANCED ORDER RULES
