

AIM Solutions is headquartered in Dallas, Texas and provides customizable Acumatica and Microsoft Dynamics software solutions to businesses. The Acumatica Partner of the Year from 2012-2015, AIM distinguishes itself with high-quality training and support for its clients.

# AIM Solutions Finds Valuable Acumatica Payment Partner

"I love working with everybody at EBiz. The employees there are really nice, very helpful, and easy to get along with."

**- AUDREY IDOM,**  
VP Sales

## What feedback have you received from your customers about EBizCharge?

They love using it. It was an easy install, easy implementation, took [a few] minutes. They love it.

## And how has our integration improved the workflow for your customers?

It's made it more simplified. So collecting a payment from their customers [literally] takes seconds.

## If you had to describe EBizCharge in one word, what would it be?

One word to describe EBizCharge would be easy.

## Has the Century Business Solutions relationship brought value to your VARS?

The Century Business relationship has brought a lot of value to my firm because I can simply call up EBiz and tell them about one of my clients that's in need. They take it from there and do all the work for me.

I love working with everybody at EBiz. The employees there are really nice, very helpful, and easy to get along with.
