Structured Training & Success

HammerTech's repeatable implementation and support approach guarantees success. We know your teams are busy so we do the heavy lifting to ensure you see process improvement and value quickly.

Kickoff - We use your current documents to create electronic forms and reports to replace the paper versions.

Design and Configuration - we review the system built to your CRS Program, confirm projects and the training plan for go live

Training and Go Live - we train site administrators, site personal, management and operations to help your teams get the most out of the system

Success & Support - Our customer success teams are available for any ad hoc needs. Support is available through our trained customer support team via phone and email as well as online resources.

“ It is an all-in-one, do it all program that has allowed us to increase our efficiency and eliminate paperwork. ”

- Paul Duke, Safety Director, Holder Construction
