

CONTAINER AND ADVANCED LANDED COST TRACKING

This powerful enhancement allows for tracking of inventory in containers. Items can be loaded into PO containers from Purchase Orders or Transfer Sales Orders to accommodate importing products stored in intermediate overseas warehouses. Landed Cost invoices are allocated to each item in the container. Inventory can be received into in-transit warehouse. Inventory in containers can get allocated to sales orders

TRACK CONTAINER INFORMATION AND STATUS

- **Track Container's.** View container's location on the map & movement log using a live API link with www.vesselfinder.com and www.searates.com.
- **Track Container Info.** Track dates and other container info. Update purchase order's Promised or Requested date based on container info.
- **Track Quantities.** For each line in the container, view item's quantity in this container, other containers, open on the PO line, and in-transit.
- **Allocate Quantity in Containers to Sales Orders.** View available quantity to allocate for each item in the container and select sales orders to allocate quantity to.
- **View Availability Information for Items in Containers.** View quantity in each container in Inventory Allocation Details inquiry and Purchase Orders form.
- **Create Receipt of Goods Transactions.** Create Purchase Receipts transactions based on information tracked by container.

ALLOCATE COST TO ITEMS

- **Enter Landed Costs by Container.** Landed costs entered at the container level are allocated to each item in the container. Option to auto calculate Duty and Tariff for products in the container. Landed costs are loaded into created Receipts of Goods transactions for the container.

THE ACUMATICA ERP DIFFERENCE

Acumatica delivers a full suite of integrated business management applications unlike any other ERP solution today.

STREAMLINE OPERATIONS

Manage your business more efficiently:

1. Automate processes
2. Control workflows
3. Access the system from anywhere on any device – including mobile
4. Promote collaboration with all-inclusive user licensing

ADAPTABLE SOLUTION

Add and extend:

5. Deploy in-house or in a private or public cloud
6. Easily configure your solution to fit your needs
7. Add capabilities such as CRM or data visualization at any time
8. Extend to other solutions and applications beyond ERP

YOUR BUSINESS ACCELERATED

1. Accelerate business performance and make smarter decisions with automated processes, real-time data collection, financial analyses, and forecasting
2. No per user pricing – system scales as your business grows
