

Inova x Acumatica integration FAQs

Why does Inova offer an integration with Acumatica?

Inova offers an integration with Acumatica to provide you with a seamless connection between payroll, HR, and your ERP system. The integration reduces manual data entry, improves accuracy, and ensures payroll and financial data flow smoothly between systems for better reporting and operational efficiency.

What are the key benefits of the Inova–Acumatica integration?

The Inova x Acumatica integration delivers several key benefits, including:

- **Streamlined Payroll Processing:** Eliminate manual entry by syncing cost centers from Acumatica to Inova, improving accuracy and compliance.
- **Single Employee Record Across Systems:** Automatically sync employee data between Inova and Acumatica, including new hires, terminations, and updates, to reduce errors and save time.
- **Optimized Accounting & Reporting:** Automatically post payroll journal entries from Inova to Acumatica, improving job costing, expense allocation, and financial reporting.
- **Improved Operational Efficiency:** Reduce administrative workload through automation and gain better insights with enhanced reporting capabilities.

Who sets up the Acumatica integration?

Inova's Integration team manages the setup process. We work with you to map your chart of accounts to Acumatica, thoroughly test the integration, and ensure everything is ready before go live.

Are there any requirements for the integration to be set up?

Yes. Your general ledger must already be properly configured in Acumatica for Inova to map and sync data accurately.

When will my general ledger be synced from Inova to Acumatica?

Your payroll general ledger will be posted to Acumatica later in the evening on the same day payroll is finalized.

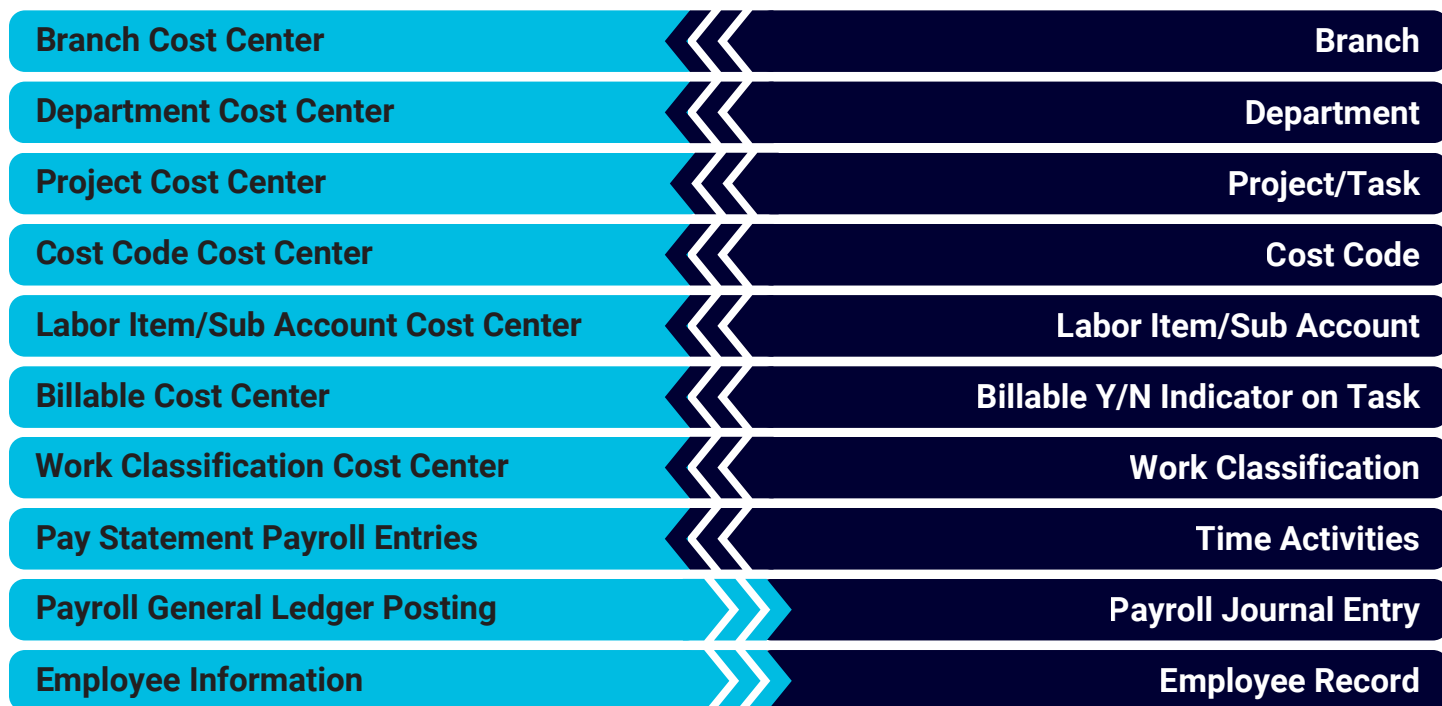

Can a draft payroll journal entry be posted to Acumatica for review?

Yes. Inova can post a draft payroll journal entry to Acumatica for your review before it is finalized, allowing you to validate the information and make any necessary adjustments.

Will my Acumatica VAR (Value Added Reseller) be involved?

Yes. Inova is happy to collaborate with your Acumatica VAR and customize the integration setup to best support your business needs. If you provide an email introduction between your VAR and Inova, our Integration team will take it from there.

How the Integration Works

Data Sync Frequency

DATA TYPE	SOURCE	FREQUENCY
Cost Centers	Acumatica	Daily
Employees	Inova	4 Hours
Journal Entry	Inova	Every Pay Period
Time Activities	Acumatica	Trigger
