

## TOTAL PROJECT CONTROL

Your reputation is on the line with every project.

Construction is one of the world's most challenging industries. We get it, because we've been there. RedTeam understands what success looks like every step of the way. That's why we're focused on the entire project team from the office to the field. Your job will never be easy, but having maximum control over schedules, safety, quality, and cost makes the day-to-day run better and more smoothly than ever before. That's total project control. That's RedTeam.

## TRUSTED BY OVER 500,000 USERS

### JOBSITE MANAGEMENT

An intuitive construction jobsite management software, built for construction companies of all sizes, for efficient, real-time collaboration among field, office, and trade workers, that reduces rework and miscommunication.

### CONSTRUCTION MANAGEMENT

An easy-to-use construction project management software is designed to help simplify, automate and standardize tasks for small to mid-size contractors who are looking to save time and money.

A highly customizable construction management software is designed to help mid to enterprise-level contractors manage their construction projects from start to finish.

"Since implementing RedTeam, its technology has helped the office stay connected with the field and manage projects remotely when we need it most."

Tim Smith, Executive VP

Wharton-Smith Construction Group

### ACCOUNTING INTEGRATION
