

How an Automotive Group Went Full-Throttle with Their AP Process Thanks to Yooz

Bruce Automotive Group was looking for the best way to automate its AP processes. Yooz was the only complete end-to-end solution to do away with the monthly madness of mailing documents between its eight locations in Nova Scotia, Canada, and sifting through piles of invoices. The Yooz platform gives them unrivaled flexibility and real-time visibility to focus on growing their dealerships and commercial leasing business.

Some of the pain points that led them to Yooz:

Paper Trail

They were tired of sending carrier bags full of invoices to capture them at headquarters.

Lack of Visibility

The AP team at the main office was struggling to get up-to-date financial data.

Time Crunch

Staff had to put in extra hours each month to clear the backlog of unprocessed invoices.

Cost Factor

Manually processing 4,000 invoices a month created unnecessary delays and costs.

Modernizing the P2P Process with Yooz in a Matter of Weeks

Working closely with their Customer Success Manager at Yooz, Bruce Automotive Group was able to get started with the most advanced AP automation fast and define the right workflows that met its needs. Within a month, staff at all locations had become familiar with the most intuitive user experience and a broad range of powerful features that Yooz offers, including seamless integration with PBS, Bruce's preferred dealer management system (DMS).

Even the onset of the pandemic did not slow down the company's path to efficient AP automation as the team was able to keep approving and paying invoices remotely and kept the business going.

Bruce Automotive's Yoozer Experience

After switching to Yooz, Bruce Automotive was able to:

Get things done thanks to the most intuitive and customized invoice and payment processing workflows for optimum **flexibility**.

Review and approve documents from anywhere, from any device, at your convenience for maximum **mobility**.

Always be in the know with instantly updated financials thanks to the **real-time visibility** of Yooz Cloud-based platform.

Never miss a beat and keep the AP process going, even when a business disruption strikes as Yooz means **reliability**.

Think it's too good to be true? Here's what Justin has to say:

"Our managers tell us they don't know how they operated without Yooz before. If you're touching stacks of invoices and reviewing them every month, it's just a waste of time. I don't think we could ever go back. Our staff would just be bogged down with papers all day. AP Automation with Yooz is simply a must in today's work environment."

Justin Barker
